AN AMERIC ANETHNOLOGICAL VIEW OF THE NEGRO QUESTION. Shall White Men Rule America? NEGROES AND NEGRO "SLAVERY The Frst an Inferior Race--The

Latter its Normal Condition. BY J. H. VAN EVRIE, M. D

The author of this publication assumes, as a starting point, that the subordinate position of the negro as always existing in American society is not a condition of slavery at all, but the matural relation of an inferior to a superior case, and that whatever evils, if any, oxist in southern society, are referable to a failure to justly embody the natural inferiority of the negro in the civil law, and not to any error in the fundamental erganism or theory of that society. His werk is divided into two parts—first the specific and radical differences of roses are examined. The color, figures hair, features, language, senses, brain &c. of the negro are shown to be only the more palpable specialities, out of a thousand similar cose separating the angro from the white man Why, when or how the Creator saw fit to thus order things the author regards as immeterial. He simply starts with the facts as they exist. After the negro is shown to be a different human being, physically and mentally, his proper relations to the white man are discussed, also mulations and its ultimate extinction, showing the impossibility of interunion like cognate branches of the white race, a very lupority and by it little understood branch to the subject. The theory advanced in this work is entirely new, and distinct from that presented by any other writer; and founded, as it is, upon influctive facts, it is believed presents at last the true philosophy of this distracting question: 1 Vol. 12mo., pp. 539.
